Subject: RE: Talking points for Shaun re DB

Hi Sadie,
This looks good to me.

Just to provide some additional background, the technical expert Powertech is bringing, Hal Demuth, likes to say we are making Powertech jump through extra hoops we have not made other permit applicants do. He likes to remind us the deep Class V wells they are proposing are just like all the Class I wells we permit and even more protective because they are treating the injectate.

Subject: Talking points for Shaun re DB

Valois - please review and let me know if there are any major errors before I send to Callie. Callie would like to read it tonight and she will get back to me first thing tomorrow morning. We will then finalize and get it to Shaun. Thanks.

Douglas/Lucita – please review tomorrow morning and let me know if you have any comments on this version.
